

# **COURTROOM TECHNOLOGY DEMONSTRATION**

**Monday, June 14, 2010**

**10 a.m. or 2 p.m.**

**Federal Courthouse**

**400 South Phillips Avenue**

**Sioux Falls, SD 57104**

Our courtrooms have been remodeled and new technology has been added. In order to familiarize you and your staff with what we have available, we are holding a Courtroom Technology Demonstration. Melissa Hinton has volunteered to conduct a demonstration of the effective use of courtroom technology during a proceeding. Afterward, the courtroom will be available for all attorneys and their staff for hands on training

This demonstration will be offered twice on Monday, June 14, at 10 a.m. or 2 p.m., and is limited to 50 persons per session. Approximate time: 1 hour.

Courtroom updates include:

- Ability of clerk to print exhibits with witness annotations
- Witness has overhead camera and monitor with touch screen capabilities
- The jury box has a monitor for every two jurors
- Counsel tables have jacks for laptops and audio jacks
- Headphones for use by interpreter and hearing impaired
- Witnesses appearing by video conference
- Wireless real time court reporting

The demonstration will feature the program Trial Director and show examples of displaying trial exhibits through either a software system or courtroom's technology (overhead camera, etc.), showing how to synchronize video deposition testimony with the actual words of the transcript, having witnesses mark exhibits and printing the exhibit with those marks, and showing the pullout or zoom feature for exhibits.

Please reserve your place at the demonstration by sending your name to [kathy\\_cline@sdd.uscourts.gov](mailto:kathy_cline@sdd.uscourts.gov).
